Box 145891
Salt Lake City, UT 84114-5801

Dear Mr. Baker,

Reference is made to our work to consolidate information included in Great Salt Lake Minerals Large Mine Permit (M/057/002). This is an effort to combine and clarify permit data that has accumulated for more than 20 years and was done at the request of the Division.

The data were submitted to your office on July 27, 2009 and is now under review by Lynn Kunzler. To date we have received no written input on the status of the review of the proposed permit consolidation. We are concerned, as it has now been more than three months since you received the information.

Doug Jensen and I request a meeting with you and your staff to discuss the permit consolidation. This meeting would allow us to find out the status of our work and do anything else that might be required to complete this project.

Sincerely,

O. Jay Gatten
